

MIXER PADDLES

EXTEND YOUR MIXER'S SERVICE LIFETIME

INNOVATIVE PADDLES FOR YOUR MIXER

Drawing on our lengthy experience and feedback from our customers, we have designed a new and innovative mixer paddle that will greatly extend your mixer's service lifetime.

HIGHLIGHTS

- V-shaped design doubles the thickness at the point of maximum wear
- Carbide on the corners to provide extra protection
- Paddles are simple to install
- Longer service lifetimes because the bolts are protected
- The paddle can also be fully coated with carbide for high mixing outputs and very abrasive materials
